

Sponsor People First England and make the voice of people with Learning Disabilities stronger.

People First England will provide a national voice for people with learning disabilities.

We will do this by:

- working with national and local groups of self advocates
- campaigning on the issues that matter most to all of us.

We want to make sure the united voice of people with learning disabilities is heard **loud and clear** by politicians and policy makers.

About People First England...

People First England started in **January 2014** with help from many individuals and organisations who came together and gave money and help to get us started.

The priority for People First England is to get to the political party conferences this year and influence both main parties before the 2015 general election.

People First England will become an **independent, user-led organisation** by September 2015. To do this and work to bring people with learning disabilities together in a national voice, we need a stable income and support.

We hope to achieve stability by getting our funding through **sponsorship** from **people** and **organisations** that care about and for people with learning disabilities.

Founding member of People First England, Kaliyia Franklin, at the H&SA conference.

Can you commit to sponsoring People First England?
